

B-Level Psychometric Assessment Training

imagine · achieve · excel

Interested in administering and interpreting B-level psychometric assessments such as MBTI®, Strong Interest Inventory®, Bar-On Emotional Quotient Inventory®?

Life Strategies Ltd., in partnership with Yorkville University, is pleased to offer CPE 510 and 521. Combined, these courses will qualify students to purchase and administer “B” level assessments. Both 3-week courses are offered fully online using a facilitated, interactive forum. CPE 521 features two 30-minute one-on-one coaching sessions with the instructor.

CPE510 Fundamentals of Psychometric Assessments

This online course introduces the basic statistical concepts that are foundational to psychometric assessments (e.g., scaling, norms, frequency, correlation) and introduces factors that impact reliability and validity in test construction and use.

Fee: \$750.00 (plus tax)

Next Session:
September 13 - October 3, 2017

CPE521 Psychometric Assessments: Selection, Administration, and Interpretation of “B” Level Tools

This course provides opportunities for participants to examine, discuss, and practice using a wide variety of “B” level assessment instruments that measure achievement, career interests, personal style, values and other individual characteristics.

Fee: \$1325.00 (plus tax)

Next Session:
October 25 - November 14, 2017

Registration Details

Register at <https://lifestrategies.ca/store/> at least 2 weeks in advance.

Registration cost includes 1 set of assessments

In order to administer B-level assessments, individuals must have an undergraduate degree and have completed a university level course in tests and measurements

If you have completed a university/college level course in statistics or tests and measurements, you are eligible to bypass CPE 510. Please provide a transcript at registration. The instructor reserves the right to approve similar courses
